POLSPOTTEN

It all started out there, on the road, experiencing what the world had to offer - creativity in its purist form. Ever since then, the spirit of forward motion has been ingrained in what we do: Worldly in expression, daring in construction, and at no time bothered by conventions. Our creations take interiors to unexpected places, bring them to life, and make them play.

We dedicate ourselves to the ethos of play. We explore with enthusiasm, design with humour, and create with the curiosity of a lifelong learner, and most importantly, we respect and nurture our greatest asset - our creative instinct. Our best play is yet to come, and when it does, it will come from within.

While following the game of adulting with rules written by someone else, ironically some might forget the magic of play. Play is essential for human development - it gives rise to imagination and fuels creativity.

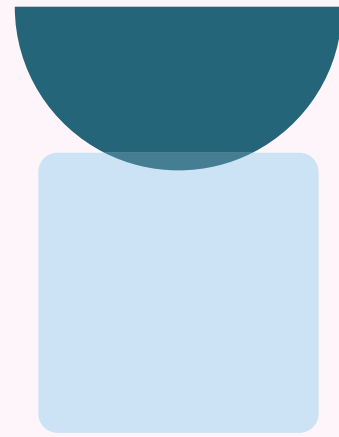

- ▲ We exist to give everyone a chance to play by their own rules,
- To express their creative vision through interiors that fear no boundaries,
- To create room for the unexpected in a life that can be, otherwise, prescribed,
- To have fun, and to make space for play.

Add play to space - add POLSPOTTEN

2022 Collection

The POLSPOTTEN 2022 Collection is a *playful* expression of our continuous journey to create fun, authentic spaces that are comfortable to live in. The collection is built upon contemporary sensibilities, characterful designs, and an all-encompassing idea that our environment is an extension of our personality.

Like all our designs, we start with people. We delve deep and understand how people are influenced by their space, and how design behaves within space – being amongst good design elevates your experience, evokes emotions, and impacts wellbeing. The more you love the things you're surrounded by, the more you enjoy the time spent amongst them.

Our collection comprises plump soul hugging chairs designed for the ultimate chill-out, cloud-like modular sofas crafted for modern living, futuristic accent décor that amplifies style, and an array of energising colours effortlessly adding flavour to your space. It's our most considered and tactile design program to date. We invite you to join us. Explore our design language, play with colours, textures, and forms – *It's time to add play to space.*

Dimensions: W95 x D103 x H70 cm

Puff Chair and Puff Pouf

Our Puff Lounge Chair and Puff Pouf fuse bold design and cosy-comfort in a simple, compact form. The plump lounge chair and its counterpart are purposely crafted for the ultimate chill-out; they'll effortlessly fit into a variety of living environments. *They're ideal for sprawling, socialising, and enjoying modern living.* The Puff series is pure homegrown goodness, made in the Netherlands and crafted from a durable soft fabric with a comforting texturized hand feel – you can't help but to spend hours on end cosied up embracing the chair itself - it's a tactile seating experience. Both pieces can be used separately or together and are available in a selection of muted contemporary tones.

Tables

Pixel Pillars

Our Pixel Pillars are quintessentially POLSPOTTEN – a feast for your senses. *They have a futuristic-digital flare that instantly transforms space.* They're designed for those who appreciate the extraordinary and the weirder side of life. The mirror-glass we use hosts four different colours, each are only visible when looking from a different angle. Influenced by architecture and digital building blocks, the design challenges the average and draws the eye. These pillars turn heads and elevate the energy of a room while complimenting a variety of interior styles. Pillars or pedestals are practical pieces of furniture as much as they are decorative, ideal for displaying your most prized possessions and complimentary décor – our pillars also make for unconventional side tables. Combine multiple Pixel Pillars, style them individually, or showcase them as standalone décor. *No matter what, they'll add that playful element you've been searching for.*

Zig Zag Coffee Table

Our Zig Zag Stool became an instant icon after its launch in 2005. Fast forward sixteen years later - we thought it was time to introduce another Zig Zag-esque design into the mix. The Zig Zag Coffee Table captures the spirit of the original Zig Zag design, it's *gorgeous, playful, and minimal*. Its structure brings a stable and well-balanced look to a variety of contemporary spaces. It requires little maintenance and is a *fun and functional piece of furniture*.

Twister Series

Our Twister Series consists of a Lamp Base and Side Table. These designs are heavily influenced by antique wood carvings commonly found in homes, manors, and public houses of the 1500s. *Adding play and functionality to traditional craft was our main objective.* Our Classic Side Table was used as the foundation of the reimagined design. We pumped-up the silhouette to elevate its tactility and realised the series in a variety of delicious colours. The Twister Lamp Base soon followed the side table - *fun, vibrant, and functional.* The lamp base is available with or without a lampshade. We keep these elements separate so you can mix 'n match colours and express yourself freely.

Optical Rugs

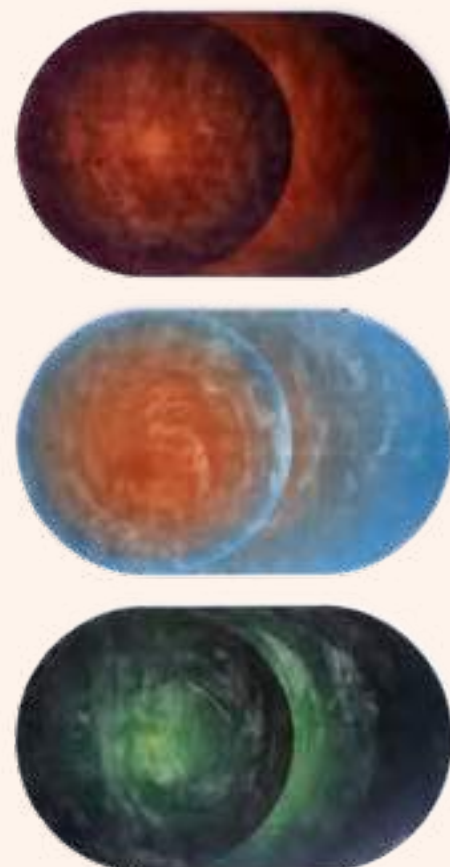

Rugs with a pattern so mesmerizing you can't help but to stop and stare - you're instantly transfixed. *Our Optical Rugs are a playful take on what we know as an optical illusion.* Influenced by the organic construction of the iris, their three-dimensional surface becomes increasingly surprising the more you look at it. Our rugs are easy on the eye and the planet, they're produced without Bitumen, PVC or Latex, and are made in Germany from 100% recycled fishing nets collected by the well coveted environmental organisation, Healthy Seas. From both a design and manufacturing standpoint the Optical Rugs *lean into the future.* They have a nostalgic presence and can interpret a traditional or contemporary environment with ease. These rugs are no illusion, enhance your space - choose from three colourways.
