Worldly in expression, daring in construction,  
and at no time bothered by conventions.

POLSPOTTEN'S creations take interiors to  
unexpected places, bring them to life  
and make them 'play'.

## **POLSPOTTEN**

For nearly 40 years, we've been creating interiors that combine the ethos of play with the spirit of creativity. By rewriting the old rulebook and letting our imagination run free, we've managed to see all sorts of unexplored places. Corners of the world where passion, curiosity, and design come to life in surprising ways.

As much as we love getting lost in possibility and seeing all that's out there, we recognize the importance of slowing down. Slowing down to look around and see our impact on the environment. Because it's when we do this that we can connect most with the world.

In a society that prizes speed and instant gratification, only a few have mastered the art of truly focussing on the question: Is this sustainable?

We managed to ask this question early on in our journey as a Dutch design company. That's why sustainability plays an important role in what we do.

Every product we design is built to last. From the concept down to the very thread, our Designs take care to create products that will stand the test of time..

Each piece we produce is a nod to craftsmanship. By blending artisanal techniques with modern design twists, every piece is composed with the utmost respect and attention

All our collaborators share our value of connection, quality, and putting people first. When we work with our special team of certified partners, we're in it for the long run.

In the meantime, sustainability will be an essential element in everything we do. The best is still yet to come.
